

MTX-120-E PADDOCK **CLEANER**

REGULAR COLLECTION OF HORSE DROPPINGS IS ESSENTIAL FOR MAINTAINING A CLEAN AND HEALTHY PADDOCK ENVIRONMENT

The Wessex **DUNG BEETLE**, is a must for maintaining a healthy paddock and will not only collect horse muck, but also dead grass, leaves, twigs and other unsightly debris. The paddock will also benefit from the regular grooming action of the brush, which will stimulate growth of fresh, healthy grass – a benefit not gained from a vacuum machine.

POWERFUL SWEEPING

The rotor comprises four banks of hard wearing polypropylene bristles fastened into a hard plastic strip. The generous length of the bristles give a good “flick” action ensuring that any debris is propelled effortlessly into the hopper. The brush strips are simply bolted in pairs through the steel box section rotor, and are quick and easy to change when worn.
